

NUNDYDROOG DIVISION.

COMMISSIONER'S COURT.

NOTIFICATION.

The 12th August 1875.

Notice is hereby given that, in accordance with the rules for the destruction of old judicial records, all the documents, exhibits, accounts, &c., filed for reference or otherwise by parties to civil and criminal cases from the year 1863 to 1869 in the lower Courts, the proceedings of which have been on appeal forwarded to this Court and which are now in this Office, as well as those filed in original cases and execution proceedings on the file of this Court from the said year 1863 to 1869, will be destroyed on the 1st November 1875.

Parties desirous of receiving back any documents of value, which they may have filed, should apply to the Judicial Sheristadar in person or by an authorized agent before the date above specified, describing the documents required and the record in which they have been filed.

J. L. PEARSE,
Commissioner.

ASHTAGRAM DIVISION.

NOTIFICATION.

The 14th August 1875.

Nineteen days' sick leave is granted to Dasa, Mestri of the Channaraypatna Taluk, on the permanent scale, from 12th to 30th June 1875.

A. C. HAY,
Commissioner.

HASSAN DISTRICT.

NOTIFICATION.

The 12th August 1875.

The undermentioned unserviceable tents of the Hassan District Office will be sold by public auction on the 20th September 1875:—

2 Double pole tents.	2 Rowties.
2 Single pole hill tents.	2 Privy tents.

Each tent will be put up separately, and knocked down to the highest bidder.

Immediately a tent is thus knocked down, the purchaser must deposit 25 per cent on the amount of his bid, and pay the balance within three days, when alone he will be permitted to remove the tent; otherwise the deposit will be forfeited to Government and the tent be again put up and sold at his risk.

E. SHAW,
Offg. Dy. Commr.

OFFICE OF THE CURATOR, MYSORE GOVERNMENT LIBRARY,
BANGALORE, 1st July 1875.

SEASON REPORTS FOR THE MONTH OF JULY 1875.

Kolar District.

Season.—There was a change in the weather towards the close of the month, the high winds which kept back the rain having greatly abated. The average rainfall during the month was only 75 cents.

Lands.—Lands assessed at Rs. 3,565-6-9 were newly taken up for cultivation and no lands were relinquished during the month.

Crops.—Ragi, ballar, dāl and paddy were sown during the month, and “Vaisak” paddy was harvested in a few places.

The standing crops are not in a thriving condition in any of the Taluks of the District, and they are expected to be a total failure in the Taluks of Kolar, Chikballapur and Shrinivasapur, where they are withering from want of rain at the proper season.

Health.—Fever and ague still continue to prevail in the Taluks of Mulbagal, Sidlagatta, Gudibanda and Shrinivasapur. The particulars of deaths as compared with the previous month are as follows:—

	June 1875.	July 1875.		June 1875.	July 1875.
From fever	516	471	From accidents and injuries	4	8

of Act XXV of 1867 during the Quarter ending 30th June 1875.

Date of issue from the Press or of the publication.	Number of sheets, leaves, or pages.	Size.	1st, 2nd, or other number of edition.	No. of copies of which edition consists. W. ECCLES,
Offg. Curator, Mysore Govt. Library.

Cattle.—The casualties among cattle were 2,650 against 1,693 in June 1875 as per following particulars:—

	June 1875.	July 1875.		June 1875.	July 1875.
Cows and bulls ..	333	607	Horses ..	15	5
Buffaloes ..	153	105	Asses.. ..	11	41
Sheep and goats ..	1,181	1,892	Total..	1,693	2,650

Price.—There is a tendency to rise in the selling price of the principal food grains as compared with the previous month.

P. N. PURNAIYA,
For Dy. Commr.

Mysore District.

Rain.—The rain-fall for this period of the year was very deficient being only 1 inch 72½ cents, as compared with 3 inches 21 cents, the quantity registered in the corresponding month of last year. At Hunsūr however it reached that quantity.

Crops.—Owing to the want of rain the jola crop, which is the staple crop of the country, has proved a failure chiefly in the Mysore, Mandya and Chamrajnagar Taluks. Cotton in the Nanjangūd Taluk is being picked. Waste lands of the value of Rs. 1,663—5—4 were taken up for cultivation.

Health.—An outbreak of cholera took place at Gundlupet, being imported, it is thought, by travellers from Satyamangiam. Sixteen fatal cases were reported. The casualties from all causes reached 703 against 598 in the previous month.

Cattle.—Murrain among cattle is still prevalent in the Ashtagram, Periyapatna, Yedatore and Heggaddevankote Taluks. The losses owing to this and other diseases reached 1,944 head, inclusive of 48 carried off by wild beasts.

Prices.—The price of food grains has risen: 1st sort rice is sold at 10½, 2nd sort rice at 11½, ragi at 25, horse-gram at 21, green-gram at 14½, black-gram at 11½ and dāl at 10 seers for the rupee.

W. HILL,
Dy. Commr.

Hassan District.

Weather.—No rain fell at the head-quarters of Nagamangala, and the fall at those of Channaraypatna, Attikuppa and Harnhalli was very light: hardly any thing to speak of, considering the season of the year. Altogether, the rain gauged throughout the District fell short of that registered in the corresponding month of last year, as will be noticed from the subjoined comparative table:—

		July 1875. July 1874.				July 1875. July 1874.			
		I.	C.	I.	C.	I.	C.	I.	C.
Hassan.	(Engineer's Office by Exec.								
	Engr.'s gauge	27	7	0		6	22½	9	60
	Do do Pogson's do	5	40	7	20½	3	67½	4	5
	Observatory at Dispensary	5	55	8	58	0	75	2	40
Belur	..	2	90	6	44	0	75	2	40
Manjarabad (Saklespur)	..	26	10	28	60	0	0	2	58
						0	43	2	52

Lands.—Lands assessed at Rs. 1,342—1—3 were taken up; while none were resigned.

Crops.—The seeds sown during the month were paddy for the Kartika crop, ragi, horse gram, dāl, chilli and castor. The prospect of the crops both wet and dry is good.

Market.—Under this head may be chiefly noticed the considerable fall in the price of ragi in the Alur market. In the month of June this staple article of food was sold at 31 seers, while in the month under report it was 44 seers per rupee. A statement of the rates on this, and the following articles of consumption as compared with last year is given below:—

		July 1875.		July 1874.				July 1875.		July 1874.	
		Seers per Rupee.		Seers per Rupee.				Seers per Rupee.		Seers per Rupee.	
1st Sort rice	..	14½		14½		Ragi	..	44		37½	
2nd „	..	16		16½		Horse gram	..	23		20	

Health.—The public health was generally good, though colds, fever and small-pox prevailed in the Taluks of Hassan, Manjarabad and Narsipur. There were 574 deaths from all causes (of which 27 were from small-pox) against 399 in the previous month, or 557 in the month of July last year.

Cattle.—Cattle disease is reported to have prevailed in all the taluks of this District, save Manjarabad and Arkalgud; and the loss has, unfortunately, been very great during the month under report, being 3,557 head in all, (including 37 killed by wild beasts) against 2,935 in the preceding month, or 2,246 in the month of July 1874.

E. SHAW,
Offg. Dy. Commr.

Shimoga District.

Rain.—The total quantity of rain gauged in the District during the month under report was 187 inches, 84 cents, of which the greater quantity fell in Sagar, Nagar and Kavaledurga, as per margin.

	Inches.	Cents.
Sagar	25	30
Nagar	76	41½
Kavaledurga	41	32½

Crops.—The crops under growth are reported to be in good condition. Ragi, cholam, togari, avare, and korasani were sown in the Channagiri Taluk. Supari reported to be attacked by koleroga in the Kavaledurga, Sagar and Nagar Taluks, and great loss has been caused by it.

Health.—Generally good. Fever and ague is prevalent throughout the District, and 5 cases of death from small-pox are reported. The total number of deaths during the month was 525 or 127 more than the month previous, and the total number of births registered was 526 or 128 more than the last month.

Cattle.—The casualties among cattle from murrain and other diseases were 1784 and by wild beasts 85.

Kadur District.

The fall of rain throughout the District, except in Banavar, Tarikere and Chikmagalur, has been fair, and the tanks have received small supplies of water.

The following table furnishes readings of the thermometer and rainfall recorded at the Chikmagalur observatory, for the past and present month, as contrasted with the month of July 1874:—

June 1875—	Thermometer	at 9—30 A. M.	75·11	At 3—30 P. M.	76·17	Rain	3 inches	34½ cents.
July 1875	"	"	73·	"	73·22	"	5 "	57 "
July 1874	"	"	70·20	"	70·20	"	8 "	1 "

Crops.—Ragi, avare, castor-oil, menthya, dál, chillies and other seeds were sown in the Taluks of Banavar, Tarikere and Chikmagalur. The young wet and dry crops raised from seeds recently sown in all the Taluks are doing well. The supari crop in some parts of the Lakvalli and Koppa Taluks have been damaged by "Kole Roga."

Health.—The health of the District is indifferent though the bill of mortality is not high. Fever and ague prevail in all the Taluks to a more or less extent. The number of deaths reported from all causes is 349 in this, against 226 last month, and 320 in July 1874.

Cattle.—The condition of live stock, generally, is on the whole good. Murrain, of the "dodroga," and "kalbayi jvara" types is still prevalent in the Taluks of Lakvalli, Banavar and Tarikere. In the Taluks of Lakvalli, and Koppa, the mortality from wild beasts has been heavy.

The total mortality from all causes amounts to 943 in this, against 1,142 last month and 2,205 in July 1874.

P. KRISHNA RAO,
Offg. Dy. Commr.

Chitaldroog District.

Rain.—From the reports received from the taluks, rain appears to have fallen in all parts of the District, but more is needed. The direction of the wind was south-west, and the average reading of the thermometer at head-quarters was 74·9 at 9-30 A. M., and 77·5 at 3-30 P. M.

Crops.—The wet crops are reported to be in good condition. The seeds sown were ragi, javari, horse-gram, gingelly, togari and green-gram. Lands paying an assessment of Rs. 2,178—12—0 were taken up for cultivation.

Health.—The general health of the population owing to the great amount of fever prevailing, cannot be said to be good; deaths from this and other diseases are reported to be 496, against 405 reported last month.

Cattle.—The number of cattle lost during the month from murrain and other diseases is 1470.

E. F. H. ARMSTRONG,
Offg. Dy. Commr.
